

View the conference programme and register early at [www.esof2006.org](http://www.esof2006.org)

# WWW.ESOF2006.ORG

- Prominent plenary speakers highlighting the latest developments in their field
- Over 70 Sessions presenting science and the humanities at the cutting edge
- An extensive career programme combining theory and practice
- Outreach activities featuring “hands-on” science and interactive exhibits

"ESOF 2006 will be a golden opportunity for me to make a statement about the resurrected issue of the conflictual relationship of science and religion as evidenced by the current claims of the Islamisation of knowledge movement, the intelligent design controversies and the renewed demands of creationism"

Sadik Al-Azm,  
Princeton University,  
Key-note Speaker at ESOF2006

## EUROSCIENCE OPEN FORUM

The 2<sup>nd</sup> pan-European interdisciplinary science meeting highlighting research and innovation.

"Science is done for the public although not made public. The results of science, however, should be presented and discussed by the public. ESOF is the right forum for this exchange."

Prof. Dr. Angela D. Friederici  
Max Planck Institute of Cognitive Neuroscience, Leipzig  
Key-note Speaker at ESOF2006

July 15<sup>th</sup> – 19<sup>th</sup> 2006  
Munich, Germany
